

STRAIGHTLINE **PERFORMANCE**

2008-11 Arctic Cat F1000/Crossfire 1000 (124-142)

Parts included in Clutch Kit:

- 1 Primary Spring (123-109)
- 3-88 Gram Weights (Setscrew)
- 1 Secondary Spring (121-157)
- 1 Helix-SPI-17
- 1 SPI Custom Torsional Cover (124-120)

Setting:

Peak RPM 7200-7300
Torsional Setting- N/A

Remove or compress the primary clutch and install the weights. Install primary spring. Inspect all internal clutch components for wear. If excess wear is prevalent replace needed items. Clutch weights are hard to install may require an impact to put weight pin in, this is normal. Be sure clutches are aligned, both center to center and offset. Instructions for the Torsional kit install can be found in the bag with the torsional parts.
